

EuroGP2005 & EvoCOP2005, incorporating EvoWorkshops2005

30 March - 1 April 2005, Lausanne, Switzerland

<http://www.evonet.info/eurogp2005>

Eight Events, One Fabulous Location

Lausanne is situated on the shores of Lake Geneva. Surrounded by rolling hills and vineyards, its historic city hosts many cultural and social events. It is easily accessible through Geneva's airport and high speed trains from Paris and Milan.

The event consists of two conferences and six workshops. This setup lets smaller groups focus on their areas of expertise and, at the same time, provides a friendly atmosphere for discussions between all participants.

Call for Papers

LT/ Régis Colombo © diapo.ch

Authors are invited to submit original work to the chair of the appropriate event. Submissions are limited to ten A4 pages and they should be sent in either PDF or zipped postscript format. Papers must conform to the Springer Lecture Notes format. Please, refer to the webpage for detailed submission instructions.

EuroGP2005

8th European Conference on Genetic Programming

High quality papers are sought on topics strongly related to genetic programming, ranging from theoretical work to innovative applications.

EvoCOP2005

5th European Conference on Evolutionary Computation in Combinatorial Optimization

The use of evolutionary computation in difficult combinatorial optimization problems appearing in various industrial, economical, and scientific domains.

EvoWorkshops2005

EvoBIO: Bioinformatics and computational biology.

EvoCOMNET: Communication, networks, and connected systems.

EvoHOT: Evolutionary algorithms applied to design automation.

EvoIASP: Image analysis and signal processing.

EvoMUSART: Evolutionary music, art, and creative systems.

EvoSTOC: Stochastic and dynamic environments.

Important Dates

Submission deadline: 5 November 2004

Notification of acceptance: 10 December 2004

Camera-ready manuscript due: 14 January 2005

Conference: 30 March - 1 April 2005

Organisation

LT/ Régis Colombo © diapo.ch

Local chair: *Marco Tomassini*, University of Lausanne

Publicity chair: *Jano van Hemert*, National Research Institute for Mathematics and Computer Science in the Netherlands (CWI)

EuroGP Publication Chair: *Pierre Collet*, Université du Littoral Côte d'Opale

EuroGP Program Chairs: *Maarten Keijzer*, KiQ Ltd. Amsterdam & WL | Delft Hydraulics
& *Andrea Tettamanzi*, Genetica S.r.l. & University of Milan

EvoCOP Program Chairs: *Jens Gottlieb*, SAP AG Germany
& *Günther Raidl*, Vienna University of Technology

Workshops coordinator: *Franz Rothlauf*, University of Mannheim
